Browser interface
forms, log, 3D viewer
Project file
JSON, six input groups
Validation
checked before each run
Analyses
2D section
heat transfer, plane strain
fibre temperatures
Wall
corotational beam, fibre section
prism σ–ε curves
3D prism
thermal, elastic, damage, joints
Wall sensitivity
Morris, runs in parallel
r(k + 1) wall runs
Results folder
CSV tables
PNG figures
VTK for ParaView
JSON for the 3D viewer
